

Today's New Mexico News

DETAILS OF MARCH OF TROOPS IS GIVEN BY DEMING PAPER

Interesting details of the march of the federal troops from Columbus of their way to "get Pancho Villa—dead or alive" are given by the current issue of the Deming Graphic. Part of the story follows:

"Bring up the colors," said Colonel Shuman of the Thirteenth United States cavalry to one of his officers as they approached the international gateway at the head of the punitive expedition from Columbus into Mexico, and added: "The American flag must go first." It was 12:10 o'clock in the afternoon when the colors passed over the border. Nearly 4,000 men were in line. This force has since been increased by newly arrived regiments, the intention being apparently, to raise the expeditionary forces up to 10,000 or more. About 1,000 troops under Colonel Dodge left Culberson's ranch near Hatchita and crossed the border Thursday morning. This column has also been reinforced.

Immediately after the first troop of the Thirteenth had passed through the gate an advanced guard with flankers was thrown out. The flankers could be seen long after the main force was hidden in the just of the "old grade" road, a thoroughfare built on the remains of an embankment of a railroad that never materialized.

The first camping place was ten miles below the Mexican village of Palomas.

The troops were ready and eager to move Tuesday afternoon, but the order to advance was delayed by the non-arrival of necessary units and equipment. Preparations were made to move at daylight the next morning, but further delay had to be endured and it was not until the middle of the forenoon that the final word was given. The troops had chafed under the delays and vented their satisfaction at at last getting in motion with noisy cheers. From the character of the equipment it may be judged that the troops are expected to move with great rapidity and unhampered by unnecessary impedimenta.

IN FIVE MINUTES! NO INDIGESTION, GAS OR SOUR, ACID STOMACH

The moment 'Pape's Diapepsin' reaches the stomach all distress goes.

"Really does" put bad stomach in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that just—that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferment into stomach bugs your belly gas and eructate sour, undigested food and acid, head is dizzy and aches; breath foul; tongue coated; your insides filled with bite and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or night. It's the quickest, surest and most harmless stomach regulator in the world.

NEW MEXICO LIVE STOCK NOTES.

C. E. Armstrong has sold to Bob White of Carlsbad, 15 head of the cows he has had on alfalfa pasture near Carlsbad.

Both Alston of Lovington has bought from C. C. Harter of Carlsbad 1,000 earthing lambs, paying \$6. Harter is to retain the spring clip of wool. This is said to be pretty near a record price.

Henry Snyder last week was named cattle inspector for District No. 1, comprising Grant and Luna counties, succeeding W. C. Simpson, lately named sheriff of Luna county. Snyder has been deputy inspector for several years and has made a good record.

L. N. Muncey this week is driving 30 head of horses from Artesia to his ranch at Elkins. The staff has been wintered on alfalfa pasture and is in fine condition.

The Jaffa-Prager company of Roswell has shipped a couple of carloads of lambs from its Pecos valley properties to Emporia, Kans., feed lots. The company recently has received two fine registered rams which have been placed with their herds.

S. E. Poliphrey of the French tract tour line buys Monday night when the coyotes raid his pens. Farmers are complaining that this is worse than for years past.

M. R. Summers of the Pecos Valley Investment company of Roswell is on his way to the Kansas City markets with 1,500 lambs fattened on feed grown between the trees in the company's orchards.

Tom Duke of Roswell has bought 100 head of fine white face calves from C. C. Harter of Carlsbad for \$48 a head.

H. Ballard of Roswell has bought 600 calves from Will Riley of Carrizozo which are to be placed on his ranch. The staff is native, of half-breed strain.

M. L. Bradford of Alamogordo has sold his dairy to Alex Clements.

H. G. Southworth has bought Green's dairy at Artesia.

Deming citizens have organized a shippers' association.

MOTOR TRUCK IS TO HAVE CHANCE WITH EXPEDITION

Whether Mechanical Transport Will Prove Better Than Equine for Army Purposes May Be Determined.

How important a part the motor truck is to play in the transport problem of the Mexican expedition may be gathered from the number of trucks being put into use and a survey of conditions to be encountered.

From Silver City comes word of the contracting of the Veine agency at El Paso to furnish fifty trucks to the government for the use of this expedition. Several days ago Chicago sent two motor truck companies, each numbering 28 heavy vehicles, to Columbus, where Associated Press dispatches yesterday told of their preparation for use.

A trainload of Jefferey "quad" four-wheel drive, were unloaded at Columbus Sunday for the expedition's use and today, according to L. J. White, agent for the White Motor car company of Dallas, a trainload of White trucks with a special army body, is being unloaded at the cañon city. There were 27 of the quads and about 20 of the Whites. Both types were of 40 and a half capacity.

This makes, within the last few days, a total of 162 trucks unloaded at the Columbus base alone, and to operate it. The trucks are expected to be used to carry not only supplies but water to the troops now about 100 miles across the border in their chase of Pancho Villa, as the water holes may be depleted by the constant use of troops and supply columns passing them, or polluted through some source.

Apparently the truck transport is being prosecuted in the nature of an experiment, as many different types of vehicle are being used. Those familiar with truck operation here are inclined to think belief, saying they suppose the government wishes to determine which type of machine is best suited for work under the disadvantageous conditions to be encountered.

MAGDALENA WANTS MOTORCYCLE RUN OF ALBUQUERQUE CLUB

That Magdalena wants the planned motorcycle run of the local single-track club is indicated by the following from the Magdalena News:

"The above from our exchanges show that this race is attracting attention all over the country, and Magdalena should take steps to see, for a certainty, that it is run over the Ocean to Ocean highways. While our chances are good for being one of the relay points for this international race we should catch the matter now before some other point beats us to it."

Silver City Gets Third Bank.

Silver City, March 21.—A third bank, the Union Exchange, will open in Silver City about May 1. Application for a state charter has been made. The bank will have a cash surplus and a capital of \$25,000 when it opens its doors. There are 50 shares of a par value of \$100 each.

The promoter is L. H. Ellis, formerly engaged in the banking business at Jamestown, N. D., who holds sixty-five shares. The other stockholders are R. B. Powell, Eli Bornstein, Herbert Methra, Harry A. Martin, Arthur S. Goodell, E. B. Venable, W. E. Burnside, W. D. Murray, Jackson Agee, T. L. Lowe. The directors will be L. H. Ellis, Herbert J. McGrath, E. B. Powell and Eli Bornstein.

TRYING TO LAND BIG BASKETBALL ATTRACTION HERE

Efforts are being made to arrange a basketball game between the University of New Mexico team and the Oakland, Calif., five here Saturday night. The Oakland five has been in Chicago for the national A. A. U. tournament and are to start homeward today.

The California quintet has a national reputation for speed and spectacular exhibitions. The team averages 175 pounds in weight and 6 feet in height. The national tourney, which ended in Chicago Saturday night, was held in the First regiment armory and attracted basketball enthusiasts from all over the middle west. Utah university finished first, the Illinois Athletic club second, and Oakland, third.

LECTURE VIEWS PORTRAY SCENES OF WILD LIFE

Some Remarkable Slides and Movies Shown by George Worcester: Talk at Univers- ity This Morning.

Counter attractions did not serve to keep down the number of auditors at the Philippines lecture by George C. Worcester at the Crystal theater last night to any extent. The theater was well filled and the audience gave close attention to the discourse.

Remarkable moving pictures and lantern slides illustrated the lecture. Wild life was depicted and also the advancement made under American rule.

Head-hunting scenes were portrayed. In contrast with them were own pictures of the modern schools that Americans have put up.

The lecture may be repeated at a later date to give those who may have been prevented from attending it last night a chance to see the remarkable pictures. Mr. Worcester is visiting his son, Professor Worcester of the University of New Mexico. He is a brother of Dean C. Worcester, former secretary of the Interior for the Philippines.

Mr. Worcester lectured this morning to the students of the University of New Mexico at 10:30 o'clock. Roseday Hall was darkened and a number of interesting slides and films of scenes in the Philippines were shown.

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whether her hair took on that auburn or streaked appearance, this simple mixture was applied with wonderful effect. By adding a tiny drizzle to Sage Tea and Sulphur Compound you will get a large batch of this old-time remedy, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Weeth's Sage and Sulphur Compound now because it dyes so naturally at evenly that nobody can tell it has been applied—it's so easy to use tho. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at time. By mortising the gray hair disappears, after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Novelist Lectures to Students

State College, N. M., March 21.—State College, N. M., March 21.—One Read, noted novelist, who has been in New Mexico for several days on a lecture trip, Saturday evening lectured to the students of the state college.

Federal Building Has Fire.

Santa Fe, N. M., March 21.—The federal building was the scene of a small fire yesterday, damage to the extent of about \$100 being done. Most of the damage was in the office of Marshall A. H. Hudspeth.

Silver City Elks Lose Another.

Silver City, N. M., Mar. 21.—The Elks' Lodge of Silver City Sunday lost the thirteenth member since January 1, when William Marshall, a blacksmith, died of cerebral hemorrhage. Marshall was 78 years old and had been a resident for several years.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardus, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardus is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardus today. Delay is dangerous. We know it will help you, if it has helped so many thousands of other weak women in the past 50 years.

At all druggists.

Write to Chattanooga Medicine Co., Letter Advisory Dept., Chattanooga, Tenn., for descriptive circulars and booklets on your case. Send money for postage and expenses.

NO MORE ANNUAL CLEAN-UPS FOR THE DUKE CITY

Board of Health Votes to Enforce All Ordinances Strictly and Keep Town Tidy All Year Round.

If plans laid by the board of health at a meeting yesterday are carried out, Albuquerque has had its last annual clean-up. The board decided that Albuquerque was too big and modern for spasmodic clean-ups. It should be kept clean every day in

Cottolene "The Natural Shortening"

Good flour, good baking powder, good salt and good cooking ought to be combined with a very good shortening to produce the best biscuits. Cottolene makes wonderful biscuits, because it is a natural shortening which improves the flavor and betters the quality of foods cooked with it.

Try it with your next batch of biscuits; then arrange with your grocer for a regular supply and use it for all your shortening, frying and cake-making.

THE FAIRBANKS COMPANY

opportunity food dealers think it is. He is urged to try the board and see how far he will be willing to go after the warning resolution is printed in the newspapers.

The City Auditorium adjourned shortly after the meeting, and the Board of Health adjourned in session that Albuquerque is cleaned up and kept clean every day in

the year.

So this spring there will be no clean-up week. A sharp campaign for a general clean-up will be maintained, and the co-operation of merchants and householders will be sought as in past years, but after the general redding up the whole town will be expected to continue on the

job and keep Albuquerque tidy.

In connection with the continuous clean-up, the board will enforce with rigid strictness every ordinance concerning litter in alleys, yards and streets and the regulations governing the exposure of food to dust. Particular attention is to be paid to the latrines.

Head-hunting scenes were portrayed. In contrast with them were own pictures of the modern schools that Americans have put up.
